9M Part B for November 01

SUBJECT

Training of medical men Backdating

The Comptroller

2 The Senior Surgeon

No 7445 S 13.11.01

I take that the allowance in the 2nd part should not be continued but that house rent of the rate may be paid

GPB—20,000—14-6-20

The Senior Surgeon calls for early orders on the recommendations made by him on behalf of Mr Ramaswamiengar & Dr Sreenivasa Rao - They note above by Mr [illegible] Surgeon that two officers [illegible] right Brain - Hæmorrhage of Thrombosis in the Cerebellum to proceed in the General line during which they are entitled to Field Allowance of Rs 5- (last clause) of the Resolution order of 23rd October 1917 Govt observed that Hon Mr Street of Finance as Member-in-charge of the General Medical Service may not now be defined. Mr Ramaswamiengar has been on 300 Rs for more than a half Year Dr Sreenivasa Rao has not yet availed himself of the first biennial increment of Rs 50 (viz from Rs 200 to Rs 250) earned by him on 1st October 1920

and since they at last had an immense advantage over others in the General line.

The Doctor will not grant
Rs 300 for another 2½
years & his case does
not seem for immediate
settlement unless, he
have further trouble
his prospects annually
settled once for all in
consultation with those
of the Ramaswamiengar.
That Rs 300 was not
intended to be an
unchangeable maximum
in the case of those
whose claims clear
from the data
quoted above - this
a question which can
only be decided as the following
such decals as the following
may not be adopted viz

After 5 years (not 3) as Rs 300 — 400
5 ——— 400 — 500
5 ——— 500 — 600

In the general rule
promotion to the last class of
Draughtsmen & from one
class to the next
another 5 by vacancies
which a different treat
ment has by the
very nature of the case

to be adopted as
regards the two Specialists
of it as I thought that
the maximum has been
stretched too high &
would close with Rs
500 - there being a single (civil
Surgeon in the whole State on both
sides. Please resubmit
this to the Diwan as
I now allow no communi-
tion between the workers
of the Specialists and
the reference made to
the Resident regarding
Col Brennan's leave

27/3/07

Back to the Diwan
This is one of the
papers which were kept back
owing to the reference
made to the Residency
by the late Offg Diwan.
The 2d now asks for
an early settlement of the
question as regards the
Specialists Mr Semmens Rao
Mr Ramaswamy Iyengar

27/3/07

29.3.07.

I am ~~not~~ prepared to entertain any proposal for the general revision of the Med Establishments now The state of finances & other pressing claims upon our consideration do not admit of it ~~at~~ at the present time.

But Dr Swinnerton & Dr Rama Warrier demand special treatment, and the two natives of Dr Krishnaswami Iyer have given Lakshmanswami and Soundarapilla cause for real complaint

The suggestion of Major Smyth would abolish the appellation of Dist Surgeons which are in charge of Dists without rank in the grade when rank in the grade as Civil Surgeons & Apoth Surgeons has my approval, and may be adopted. Lakshmanswami & The claims of the Soundarapilla ~~and~~ will be satisfied by their ~~promoted~~ promoted as Civil Surgeons and this promotion ought to be granted at once - they will continue in charge of their Hospital in Mysore & the Surgeon might be permitted to place that institution to immediately under his own orders -

As per Dr Srinivasachari the fact that he has been allowed to raise for housing loan expectations by the several recommendations made by both the Senior Surgeons on various occasions and also by the Govt rating his services highly when he was deputed to Bombay cannot be overlooked There is also in my opinion an ~~error~~ underlying assumption of Dr Srinivasachari's superiority over Dr Ramaswamy in the various proposals submitted - This is also an important factor in dealing with these two Specialists - Neither of these should now be placed in a position inferior to that of Dr Krishnaswami Iyer or Dr Lakshmanaswami & or Messrs Govindarajulu - They should at once be placed on 400 Rs a month Their further promotion & the rate of it should be decided Dr Srinivasachari has been practically drawing 430 Rs now made up of an Educational allce of 200 Rs & a house rent of 30 Rs - This fact also has a great bearing upon his starting pay

This note with Mem Trafford will be now circulated. With comments it will be brought up before the Council at early meeting.

Submit this case to the Dewan

I know I write we had not - ~~limit~~ fixed Dr K Rao's pay at Rs 300 plus his allowance of Rs 200 above 2 Our action has been entirely misunderstood both by the Court & by Dr Knight - We dealt with Dr K Rao in most liberal manner and yet - we are charged with misfeasance

22/6/07

For perusal & question - asked by the Dewan - Please see our orders on record & the letter - Effect should be given - pass order - & draft order, and put up for signature

22/6/07

Submitted to the Dewan

22/6/07

Being apt tomorrow

25/6

1086

I still think that Dr S. Rao's pay ~~should~~ should have been consolidated, & put under the 2nd grade of 400 to 700 as proposed - If this ~~is~~ were done the whole question is ~~what~~ terminates - We have given a designation to Dr S Rao - but what is his pay & place of Ramaswamiyar name must be found & then much of the misunderstanding will disappear if we can establish that pay scale of 2 first Rs 500 may ~~be~~ be called what with arise to 700 by 2 Rs yearly increment.

23.6.07

Read
23.6.07
1025

If the pay is called about Rs 500 - Vide Rs Taffore's letter of the 12th inst - Scale of the Civil Surgeon is 400 to 700 - Class - II

1907

Subd

In his letter No 637 of the 15th June, 1907, Mr. Cook submits the three following points for the orders of Govt :-

(1 Dr M Sreenivasa Rao's designation

2. Allowce to do being raised from Rs 100/ to Rs 200/ a month

3. Grant of a monthly allowce of Rs 200/. to Mr Wetherell for his portion of the teaching work in the College

The 1st two points have been disposed of and the 3rd requires orders

Mr Cook's proposal may be sanctioned but the increments should be withheld till the other questions raised are settled Q

28/6/07

1st point Mr Cook's proposal is different from what he had already decided - Q

Dated. 22-11-99

No. 1389 with 2 encls.

Sir,

I have the honor to acknowledge the receipt of your docket No. 4293/28-96 dated 28th September 1899, and in reply to state that in my No. 631 dated 31-8-99 I merely asked the Government to sanction a fee of Rs. 100/- to the Government Bacteriologist in cases where outsiders applied for a course of instruction in Bacteriology.

2. I have since decided not to allow outsiders to undergo a course of study in Bacteriology so that the question asked by me in my letter may be allowed to drop.

3. In your letter No. 4293/28-96 dated 28th September 1899 in which you state that owing to the fact of Mr. M.Sreenivasa Rao having a variety of duties to perform, it is questionable whether any additional

additional duties could be imposed upon him without detriment to his proper function, and requesting to be informed whether Mr. Srinivasa Rao could not be relieved of the Central College Work which he was required to do as a temporary measure.

4. In reply to this I have now the honor to enclose a letter received from Mr. Srinivasa Rao on the subject, as also one from Mr. J. Cook, Principal of the Central College for your information. From Mr. Cook's letter you will see that he is any thing but desirous of losing the services of Mr. Srinivasa Rao.

I have the honor to be,

Sir,

Your most obedinet servant

Lt.-Col.,I.M.S.,

The Chemical Laboratory,
AND
Bacteriological Institute,

Bangalore, 26th October 1899.

34/a

No. 200.

Enclosures: 1.

From.

The Chemical Examiner and Bacteriologist
to the Government of Mysore,
Bangalore.

To

The Senior Surgeon & Sanitary Comr
with the Government of Mysore
Bangalore

In returning herewith Government docket No. 4293/M 28-96 dated 28.9.99 received with your Endorsement No. 993 dated 3.10.99, I have the honour to State that my appointment as Chemical Examiner for Coorg and for the Civil and Military Station, Bangalore, is merely nominal. For the last

years only one case was received from the former and one from the latter. Judging from the past, there is no likelihood whatever of the work from those quarters assuming such proportions as to interfere with my other duties

2. It is quite true as the Government has been pleased to observe, that I have to look after a very large laboratory but this is not unconnected with my appointment as Chemical Examiner and Bacteriologist to the all ports Government and really forms a part of my legitimate work

3. Coming now to the question raised by Government whether I could not

be relieved of the Central College
work. I beg to point out the erroneous
assumption of Government that I was
required to do the work as a tempo-
-rary measure and request that
such an impression may be removed
I accepted the Lectureship so kindly
offered by Government on the dis
-tinct understanding that the ar-
-rangement was of a permanent
nature and there is nothing in
the Government orders on the Subject
or in the recommendations made
by yourself and Mr Cook to
warrant a different view. The
Lectureship Allowance was intended
to Compensate me for the utterly

D7 No: 1015
27.10.99

inadequate pay attached to the post of Chemical Examiner and Bacteriologist in this Province. Though Compelled by my pecuniary circumstances to take up the Lectureship on account of the allowance it carries, I have no objection to be relieved of it, provided the Government increase my pay and Status as a Specialist in the Medical Department provided that the Principal of the Central College agrees to the proposal. I have the honourable

1119
11 11 99
34
6

From
The Principal,
Central College, Bangalore.

To
The Senior Surgeon and Sanitary Commissioner
with the Government of Mysore.

Sir,

In reply to your No. 1180 dated 26th October 1899, I have the honor to say that it will be quite impossible for me to relieve Dr. M.Srinivasa Rau of his teaching of Biology and Geology in the Central College, until Government provides a man capable of doing his work and there is no local man available for this.

I have been very well satisfied with Dr. M.Srinivasa Rau's regularity and the discharege of his duties as Lecturer here and have no wish for any change, at all events, until Government provides a single Professor capable of taking all the Biology and Geology work of the two Lecturers Mr. Wetherell and Dr. Srinivasa Rau, who have each been coming two hours daily during the past year.

With reference to the letter from the Government (herewith returned), which you have kindly enclosed, I would remark that Dr.Srinivasa Rau's work as Chemical Examiner for Coorg as well as the Civil and Military Station, Bangalore, has hitherto been little more than nominal.

I have the honor to be,
Sir,
Your most obedient servant,

Principal.

No 3325
Dated 14th December 1901

Sir,

I have the honor to invite the attention of Government to the matter set forth in the accompanying letter No.107 dated 17th August 1900 by the Chemical Examiner and Bacteriologist, Government of Mysore, as well as in his No.136 of 25th August 00

It is clear from these letters that the Chemical Examiner has a good deal of useless work thrown on his hands, owing to the irresponsible way in which every one who thinks he has got something curious in his possession, packs it off to the Laboratory for investigation.

3. I therefore think the time has arrived when Government may lay down definite rules as to who shall send articles to the Laboratory for examination, and I have accordingly drawn up the following rules, more as suggestive memoranda or as something to form a basis on which to construct definite rules on these matters than as a final settlement of these matters. I venture to think, however, that though brief, these proposed rules will be found sufficiently comprehensive, allowing great latitude to public officials, at the same time affording the Chemical Examiner protection from indiscriminate requisitioning by all sorts and condition of men.

I have the honor to be,
Sir,
Your most obedient servant

DUTIES OF THE CHEMICAL EXAMINER AND BACTERIOLOGIST

GOVERNMENT OF MYSORE.

(i) The Chemical Examiner and Bacteriologist to Government shall examine, chemically or bacteriologically, or in both ways as may be requisitioned, all substances sent for medico-legal purposes by Magistrates, or police officers not below the rank of Assistant Superintendent, or by Medical Officers on the receipt of an order from a Magistrate or Police Officer not below the rank of Assistant Superintendent of Police.

(ii) He shall also analyse in such manner as may be required articles of food and drink sent to him by Municipalities Local Fund Boards, and by Heads of Departments. Should a departmental Officer who is not the Head of the Department require such articles examined for Sanitary purposes, he shall obtain the sanction of the Head of his department before sending them to the Laboratory.

(iii) He is analyst to the Abkari Department

(iv) He is not required to analyse gratis samples of food and drink or any other articles tendered by private parties not even articles tendered to Government Departments. If such analysis be at any time required the parties tendering shall pay the Chemical Examiner the usual fee payable for private work.

(v) Pending the organisation of a clinical laboratory he shall make such bacteriological and pathological investigations as may be required by any Sanitary Medical Officer holding an independent charge.

(vi) He is at liberty to make analyses and Bacteriological examinations for private persons charging fees according to the scale and on the conditions laid down by Govt: (P.W. No.11[illegible]/ 15. P.58-9[illegible] of 17th March 1[illegible].

Enclosures: Nil.

From

The Chemical Examiner and Bacteriologist
to the Government of Mysore,
Bangalore.

To

The Senior Surgeon & Sanitary Comr.
with the Government of Mysore
Bangalore

Sir,

I have the honour to request that orders may be passed defining the position of officers of Government in the several departments authorised to send Substances for analyses in their official capacities.

2. I believe that, so far as the medico-legal cases are concerned, the practice prevailing in the Madras Presidency might be followed in this Province as well. As Magistrates

receive intimation of every Crime occurring within the limits of their respective jurisdictions the proper course is for them to decide whether in any case articles have to be sent for analysis and ask the nearest Medical Officer to forward such things properly packed to the Chemical Examiner. In cases where the Police consider that articles should be sent for analysis, they should apply to the nearest Magistrate who will take such action as may be deemed proper.

3. Besides Magistrates, Health Officers of Municipalities, and Medical Officers who have to look after Sanitation may, I think, be authorised to send things for analysis

4. Officers of Government, just like private persons, are, however, at liberty to send articles for analysis in their private capacities, on Condition of their paying the fees prescribed by Government. but they should make it clear

33

in their requisitions whether the work sent by them should be treated as a private one or not.

Bangalore, 25th August 1900

No. 136.

Enclosures: Nil.

From

The Chemical Examiner and Bacteriologist
to the Government of Mysore,
Bangalore.

To

The Senior Surgeon and
Sanitary Commissioner
with the Government of Mysore,
Bangalore

Sir,

With reference to your docket No 873 dated 23d August 1900. I have the honour to State that the following are a few instances in which officers who are neither Magistrates nor those belonging to the Medical Department have sent things for analysis in Medico-legal Cases:

No.	Date of Examination	Substances Examined 35	Sent by
1	9.8.97	Avalakki, bengal gram powder & Jaggery	Police Inspr. Magadi
2	15.10.97	A knife with stains	Police Superintendent, Mysore
3	3.11.97	Ragi flour (boiled & unboiled)	Police Supt., Mysore
4	25.11.97	Some dry grey mass.	Police Officer, Nagar
5	3.1.98	Ragi Cake & Some powder.	Police Officer Kankanahalli
6	8.2.98	A dark mass said to have caused abortion	Police Officer, Nagar.
7	28.2.98	Cow dung suspected to have been stained with blood	Police Officer, Nagar.
8	21.3.98	Vomitted matter	Police Inspr. Bowringpett
9	30.3.98	Vomitted and faecal matter	Police Inspr, Channapiri,
10	13.4.98	Dry earth suspected to have been stained with blood	Police officer, Nagar.
11	5.7.98	Chillies, Salt, Vomitted matter &c.	Police Inspr. Bangalore Dist
12	18.1299	A Sickle said to have been stained with blood.	Asst Supt of Police, Bangalore
13	20.12.99	Grain Cooked & uncooked.	Police Inspr, Kankanahally
14	18.1.1900	A Sickle suspected to have been stained with blood	Police Inspr Krishnarajpet
15	12.2.1900	Vomitted matter & a white substance	Police Inspr. Channapatna
16	3.5.1900	A whitish powder	Police Inspr. Krishnarajpet
17	14.6.99	Viscera of an Elephant	District Forest Officer, Mysore
18	9.7.1900	A pair of Short drawers & a female cloth with Suspected Seminal Stains	Police Inspr, French Rocks
19	25.8.1900	A Sword with Suspected blood Stains	Police Inspr. Seringapatam
20	25.8.1900	A Cloth with Suspected blood Stains,	Police Inspr. Seringapatam

2 It is only in the following few cases that articles for analysis in Medico legal cases were sent by the Magistrates themselves:-

No	Date of Examination	Substances Examined	Sent by
1	28.2.98	Vomitted matter, Earth &c	Amildar of Channapatna
2	14.3.98	Ragi	City Magistrate, Bangalore
3	29.8.98	Dry Earth	Dy Amildar, Harihar Subdy:
4	3.2.99	Ragi	1st Class Magistrate, Chitaldroog
5	17.7.99	Rotten mangoes	City Magistrate, Bangalore
6	9.99	A Cloth & a Coat with Suspected blood Stains	Sub Divl. Magte, French Rocks
7	18.7.1900	A red handkerchief with Suspected blood Stains	Amildar of Bangalore
8	27.7.1900	Two Sticks & one bed Sheet with Suspected blood Stains	Amildar of Bangalore
9	15.8.1900	A dirty white cloth with Suspected blood Stains	Amildar of Seringapatam

13 In the other 135 Medico-legal cases, which form the largest number, the medical officers have sent things for analysis, generally on the requisition of the Police and sometimes on their own responsibility, without the cognizance of Magistrates in either case. As a case in point, I may note the instance in which the Civil Surgeon of Shimoga sent with his letter, No 391 dated 27 October 1898, a certain substance which he suspected was administered to a patient of his with a view to cause him some injury. In order to be assured whether the case was a

38

private or a medico-legal one.
I wrote to him for information as to
(1) the date of offence, (2) the date
of report by the Police, (3) the
date of complaint before the
Magistrate (4) before which Magis-
-trate the Complaint was made,
and (5) the names of the accused
that were concerned in the offence,
and I got no reply at all. In
another case, the Assistant
Surgeon of Chitaldroog sent me
with his letter dated 27th May 1900
16 dark coloured bengal-gram
seeds and wanted to know whether
they contained any substance
of a noxious nature, as he suspected

they were given to induce slow poisoning

4. In some cases such as those in which unclaimed dead cattle are concerned, or in which the administration of a poison or the commission of a crime cannot be traced to any particular individual or individuals, it is obviously unnecessary to send articles for analysis as such cases are not likely to go up before Magistrates for trial. It would, therefore be a wholesome check, if only the Magistrates are authorized to require the analysis of articles

in Medico-legal cases.

5. As for ordinary Chemical analyses I think a general rule may be prescribed that only the Heads of Departments should send such things alone, as in the analysis of which, their Department is Specially interested. No objection can possibly be taken under this rule to the Excise Commissioner Sending various Samples of water wort beer arrack Caoutchoucine methylated Spirits, akkibhoja &c as he has been doing. The Superintendent

Enquiries of Sanitary Works and the D.P.W officers in charge of Water Works have been sending me various samples of water and sand for analysis and this may be allowed. The following, however, are a few instances in which some officers appear to have taken advantage of their official positions in forwarding articles for analysis.

On 30th July 1897, I Examined some leaves with fungus-growth sent by the Sanitary Enquiries. From 6th to 12th October 1897 I was Engaged in Examining a black mass and from

29th October 1897 to 6th November 1897,
a cake of soap sent by the
Assistant Surgeon in charge of
the Maternity, Bangalore. From
the 13th to 20th October 1897, I was
occupied in Estimating the amount
of tannic acid in the bark
of Cassia auriculata sent
by the District Forest officer,
Kolar; and on communicating
to him the result, he went so
far as to ask me to manufacture
for him 2 lbs of tannic acid to
be sent to the Museum of Economic
Products in Calcutta but I was

obliged to draw the line here,
and refused to Comply with his
request. On 3d January 1899
I analysed a Sample of milk
Sent by the Sub Inspector of
Police, Bangalore City. On 20
July 1898, I got a Sample of
what was called "Tonic Water"
from the Inspecting Medical
Officer at Yeswantapur, who
professed to send it for analysis
in the interests of the travelling
public On 21st April 1899, I
tested the purity of a Sample
of Castor oil and on

11th November 1899 analysed an alloy of aluminium tin and Zinc. Sent by the Military Assistant. Sometimes the Police and Magistrates have sent me samples of water for analysis, but I think this work may be better Entrusted to Medical or Sanitary officers.

6. With regard to bacteriological analyses I think it will be Sufficient if it is laid down that only Health officers and Medical officers in independent Charge of Hospitals and Dispensaries, might Send things for Examination The

nature of the articles to be sent has to be left largely to their own discretion. An instance in which the Special Magistrate of Kolar Gold Fields sent me on 10-November 1898 for the detection of the Plague Bacillus and the Cholera Spirillum, 64 things consisting of various articles of provisions such as rice, dhall, pulses, Sugar, ghee, oils, salt, tamarind, Chillies, other Condiments etc, usually found in Indian bazaars, is worthy of mention here, as showing how laymen are apt to make mistakes in such matters, thus throwing a lot of unnecessary work on

the Laboratory, not to speak of the needless worry caused to merchants. D. P. W Officers in charge of Water Works may, however, be allowed to continue sending water and sand for analysis.

I have the honour to be,
Sir
Your most obed.t Servant

Proceedings of the Government of Mysore,

READ

(1) Letter No. 3325, dated 14th December 1901, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, submitting a memo of rules relative to the examination of substances by the Chemical Examiner and Bacteriologist to the Government.

1. I have the honor to invite the attention of Government to the matter set forth in the accompanying letter No. 107, dated 17th August 1900, by the Chemical Examiner and Bacteriologist, Government of Mysore, as well as in his No. 136 of 25th August 1900.

2. It is clear from these letters that the Chemical Examiner has a good deal of useless work thrown on his hand, owing to the irresponsible way in which every one who thinks he has got something curious in his possession, packs it off to the Laboratory for investigation.

3. I therefore think the time has arrived when Government may lay down definite rules as to who shall send articles to the Laboratory for examination, and I have accordingly drawn up the following rules, more as suggestive memoranda or as something to form a basis on which to construct definite rules on these matters than as a final settlement of these matters. I venture to think, however, that, though brief, these proposed rules will be found sufficiently comprehensive, allowing great latitude to public officials, at the same time affording the Chemical Examiner protection from indiscriminate requisitioning by all sorts and conditions of men.

---

2. Correspondence ending with letter No. 4612, dated 15th March 1902, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

OFFICE OF THE DEWAN OF MYSORE,
Dated Bangalore, 14th April 1902.

NOTIFICATION

The following Rules relative to the examination of substances by the Chemical Examiner and Bacteriologist to the Government of Mysore, are published for general information :—

Duties of the Chemical Examiner and Bacteriologist, Government of Mysore.

(i) The Chemical Examiner and Bacteriologist to Government shall examine, chemically or bacteriologically, or in both ways as may be requisitioned, all substances sent for medicolegal purposes by Magistrates, or Police officers not below the rank of Assistant Superintendent, or Medical officers on the receipt of an order from a Magistrate, or Police officer not below the rank of Assistant Superintendent of Police.

(ii) He shall also analyse, in such manner as may be required, articles of food and drink sent to him by Municipalities, Local Fund Boards, and by Heads of Departments. Should a Departmental officer who is not the head of the Department, require such articles examined for sanitary purposes, he shall obtain the sanction of the head of his Department before sending them to the Laboratory.

(iii) He is analyst to the Excise Department.

General, dated 14th April 1902.

(iv) He is not required to analyse gratis samples of food and drink or any other articles tendered by private parties, not even articles tendered to Government Departments. If such analysis be at any time required, the parties tendering shall pay the Chemical Examiner the usual fee payable for private work.

(v) Pending the organization of a clinical laboratory, he shall make such bacteriological and pathological investigations as may be required by any Gazetted Medical officer holding an independent charge.

(vi) He is at liberty to make analyses and bacteriological examinations for private persons, charging fees according to the scale and on the conditions laid down by Government Proceedings No. 11665—Mis. F. 28-96 of 17th March 1898.
